

MERIDIAN

EXPLORER²

THE MERIDIAN AUDIO EXPERIENCE
AT YOUR FINGERTIPS.

EXPLORER² – A FULLY ASYNCHRONOUS,
USB AUDIO CLASS 2 DAC,
BASED ON THE MULTI-AWARD-WINNING EXPLORER.

More than a high-quality portable USB DAC, Explorer² includes MQA – *Master Quality Authenticated*.

MQA technology is certified by artists, engineers and producers as delivering the *authenticated* sound of the original master.

For the first time in the history of recorded music, you're *really* hearing the artist's performance.

UPSAMPLING & APODISING
DEVELOPED FROM THE 800 SERIES;
NATIVE 192 kHz/24-BIT PERFORMANCE

MERIDIAN EXPLORER²

A close-up photograph of a silver Meridian Explorer 2 audio interface. The device is cylindrical and has a black USB-A connector plugged into its rear. It is resting on a silver laptop, with the keyboard visible in the background. The text 'MERIDIAN EXPLORER²' is printed on the side of the device. A small blue dot is visible on the right side of the device. The lighting is dramatic, highlighting the metallic texture of the device and the laptop.

EXPLORER² – WITH AWARD-WINNING
MERIDIAN RESOLUTION
ENHANCEMENT TECHNOLOGIES

Ultra-low impedance and 100dB advanced volume control provide exceptional control for the most sensitive headphones. And there's a line output too.

Explorer² plays high resolution 24-bit/192 kHz files at their native resolution without downsampling. Meanwhile, Meridian's unique Apodising filter can actually fix errors in digital recordings, making them sound more alive and natural.

EXPLORER² – PURE MERIDIAN THROUGHOUT

Explorer² replaces your computer's sound card to drive anything from a pair of headphones to a full audio system.

Designed, engineered and hand-made in Cambridge, England – with the same care and attention as every Meridian product. Explorer² delivers the Meridian experience in miniature.

Meridian. Designed and hand-made in Cambridgeshire, England
