Dual ¼in (6.35mm) sockets for separately-wired and conventional headphones.

⅛in (3.5mm) headphone socket suits in-ears.

Preamp out for connection to an analogue hi-fi or active speakers.

MQA: MASTER QUALITY AUTHENTICATED  
THE SOUND OF THE ORIGINAL MASTER  
– GUARANTEED

ANALOGUE SPATIAL PROCESSING  
FOR A NATURAL, EXPANSIVE  
SOUNDSTAGE

Master Quality  
Authenticated (MQA)  
delivers the true sound  
of the artist's  
performance – for the  
first time in the history of  
recorded music.

Meridian's Analogue  
Spatial Processing (ASP)  
transforms headphone  
listening, creating a  
natural, expansive  
soundstage that's  
outside your head –  
more like listening to  
loudspeakers.

"These Prime units make many other headphone  
amplifiers appear like period pieces." —*Hi-Fi News*

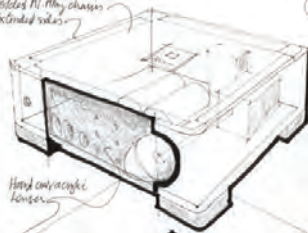

# INNOVATION INSIDE ELEGANCE OUTSIDE MERIDIAN THROUGHOUT

At Meridian,  
the look and feel  
of a product  
is as important  
as what's inside.

Co-founder Allen  
Boothroyd created a  
unique new enclosure,  
echoing previous iconic  
Meridian designs like  
the G Series  
and even Meridian's  
original 100 Series.

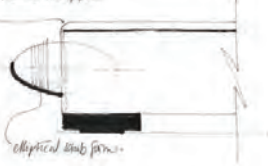

*Meridian / Home Theater AV System, Proj. 4/10*

*Filled w/ 14y chassis  
Oxideal sides*
